

OLOS – FROM FIRST SNOW TO SPRING DRIFTS

Olos is a cross-country skier’s paradise, and downhill skiers can also enjoy the area with its 10 well maintained slopes. The ski track network is 250 kilometres long in the diverse terrain of Olostunturi fell, Särkijärvi lake, Jerisjärvi lake, and Muonio.

LONGEST SKI SEASON

Artificial snow tracks are opened as soon as the first frost arrives in October, and the based first-snow tracks are opened

as soon as first snow starts to fall in October-November. On the heat track, you can practise up in the tree line in milder temperatures. 30 kilometres of the tracks are lit. Our skiing school also teaches cross-country skiing!

With the Olos/Pallas pass you can ski down both fells and both in Luosto and Ounasvaara. Six-day tickets and above as well as seasonal tickets grant you one day of skiing at Ylläs. The SuperSkiPass has unlimited access to Ylläs, Olos, Pallas, and Levi.
